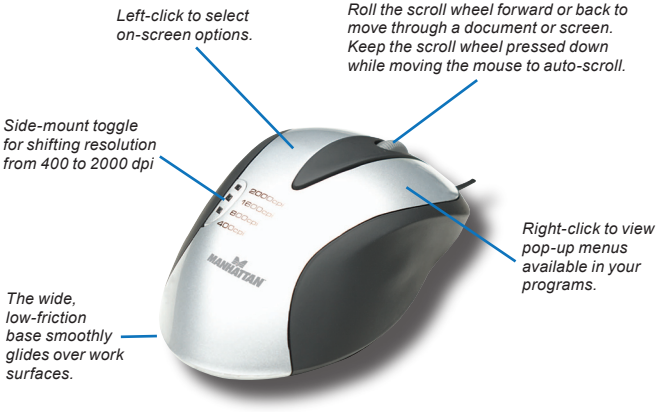
ML1 LASER GAMING MOUSE QUICK INSTALL GUIDE

MODEL 176965

Thank you for purchasing this MANHATTAN® ML1 Laser Gaming Mouse, Model 176965.

Its convenient side-mount toggle switch instantly shifts resolution on the fly from 400 to 2000 dpi to suit a wide range of applications; Plug and Play installation plus Windows and Mac OS compatibility offer quick, easy operation; and, with no mechanical or rolling parts to wear out, little maintenance is required to maintain optimal performance.



Left-click to select on-screen options.
Roll the scroll wheel forward or back to move through a document or screen. Keep the scroll wheel pressed down while moving the mouse to auto-scroll.
Side-mount toggle for shifting resolution from 400 to 2000 dpi
Right-click to view pop-up menus available in your programs.
The wide, low-friction base smoothly glides over work surfaces.

Package Contents
- ML1 Laser Gaming Mouse
- Quick install guide

FCC Statement

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception — which can be determined by turning the equipment off and then back on — the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your MANHATTAN dealer or an experienced radio/TV technician.

Operating Tips
- Do not use the mouse in conditions of extreme temperatures or excessive moisture, dust or dirt.
- The optical mouse will not work freely on a smooth desk, glass or any reflective surface or 3D mouse pad.
